Jobs

We have this great need for jobs to be created, but our legislature seems to be living in some other world where we all have jobs but we're in danger of losing them to illegal immigrants. Yes, there is an issue with illegal immigration and there are things that need to be addressed, but with people struggling to find or keep jobs, why is our legislature turning a blind eye to creating jobs in Arizona?

Transportation

Transportation is an important issue in any major city. Even though Anthem and New River are outside of Phoenix, many of the people who live there work in Phoenix. It's time to address the transportation needs of the Valley as a whole, not just Phoenix.

Education

Right now, we have a dilemma. The Legislature has cut funding for our children's education while still promoting school vouchers. We have good, decent teachers who would love the opportunity to teach again. So let's figure this out

Green Technology

Green technology is vital to the expansion of Arizona. We already have the technology and resources available. Why aren't we using them? It's time to take the reigns and make Arizona the industry leader in America.

Common Sense, Not Nonsense
